

## Distributor EZEECRETE SDN BHD Sells First Mobile Mixer

*Based in Malaysia, EZEECRETE welcomes Mr. Zack Lim Eng Hock as their first customer to purchase a Cemen Tech mobile concrete mixer.*

Zack Lim, managing director of Zacklim Group of companies, is the go to man for technical issues and problems applying to concrete.

- Passionate in concrete and construction.
- Over 30 years industry experience both as main contractor and now super flat floor specialist.
- Two terms as ACI-KL (American Concrete Institute- Kuala Lumpur President 2012-2016).
- Founding member of concrete floors Asia (CFA).
- Vice President of Concrete Society of Malaysia (CSM).
- Principle of Academy of Concrete Technology Sdn Bhd(AOCT).
- Seminars and training upholding good concrete practices.
- Enhancing the knowledge of modern concrete technology throughout Asia.

Zack realizes through his vast experiences that being in control of your concrete application is key to good concrete practice. In addition to Zack having the skills and knowledge to competently install the highest quality concrete, with a Cemen Tech concrete mixer he can ensure you have the precise mix and exact amount of concrete every time. He can provide fresh concrete delivery onsite with each pour as well as provide a printed record of exactly what has gone into the mix because of Cemen Tech's state-of-the-art engineering and innovative volumetric technology.

"Our Cemen Tech mobile concrete mixer with volumetric technology helps us meet our customers' increasing expectations enabling us to deliver on demand quality concrete. No more waiting around for concrete deliveries from batch plants, or having workers idle until our concrete order has been dispatched to us when they finally have a slot for our order. No wait, no waste.

Not only can we increase our proficiency with a Cemen Tech mobile concrete mixer in our business, it also opens up a variety of other profitable options to us by supplying concrete to other contractors facing the same problems such as pre casters, imprinters and pervious concrete contractors to name a few. We look forward to a working relationship with EZEECRETE SDN BHD and Cemen Tech," stated Zack Lim.
