

CONTROL YOUR CONCRETE™

Adding a Cemen Tech upright or low-profile silo to your operation allows you to purchase and store cement in bulk, which saves you money and keeps your crews working. Cemen Tech evaluates how you plan to store and transfer cement, and then recommends the best solution for your yard, remote job site or application. **Cemen Tech's line of silos offers stationary or portable solutions, power sources, discharge heights and more in a variety of sizes.**

- Choose between mobile and stationary units
- Save money by buying cement in bulk
- Customize unit to your specifications
