CONTROL YOUR CONCRETE. CONTROL YOUR SCHEDULE. CONTROL YOUR JOB. CONTROL YOUR PRODUCTIVITY. CONTROL YOUR MIX. CONTROL YOUR QUALITY. CONTROL YOUR PROFITS. CONTROL YOUR COSTS. CONTROL YOUR TIME. CONTROL YOUR LOCATION. CONTROL YOUR REPUTATION. CONTROL YOUR WORK AREA.

WITH THE M SERIES CONCRETE MIXER

VERSATILE
Outstanding performance and durability. Flexibility to fulfill any job.

DURABLE
Use anywhere, at any location and on any type of job site.

FLEXIBLE
Unlimited concrete applications and specialized options.

CONTROL
Quality, quantity and schedule.

“
We do our own mix designs and calibrations, so we’re in complete control of the quality and type of concrete we pour. It is a mobile batch plant.

— Express Metered Concrete, Retail Delivery Business, New Braunfels, TX

TECHNOLOGY
Most accurate volumetric mixer on the market for quantity and quality, meeting the standards of ASTM, DOT and VMMB.

OPTIONS
Various options available to fulfill any job — pneumatic fill, dry color, liquid color, fiber chopper, latex and fast-setting concrete.

UNLIMITED APPLICATIONS
Wide range of applications, including commercial/industrial, floor screed/topping, back-fill/soil stabilization, infrastructure repairs, mining and underground. Don’t see your application? Ask us, we can build a mixer to do it!

GLOBAL
Flexibility and stability make it the mixer of choice in more than 50 countries and for the United States Armed Forces.
**M SERIES**

### STANDARD FEATURES

- **Two-Speed Cement Bin**
  Adjustable cement discharge allows an operator to easily switch between concrete mixers and flowable fill applications.

- **Sand, Stone & Cement Bin Vibrators**
  Ensure materials are delivered at a consistent rate with pre-programmed auto-adjustable vibrators.

- **Dual Auger Cement Metering**
  Take the guesswork out of pouring with consistent mix designs within +/-1 percent every time.

- **Pump Master Auger w/Max Life Bearing**
  A homogeneous mixing auger for higher discharge height than standard dual mix section augers with a greaseable Max Life bearing for extended life.

- **Digital Counter**
  Operators can calculate the yards poured and track the RPM of the conveyor belt with the Red Lion Digital Counter.

- **High and Low Flow Admix Tank with Flow Meters**
  Operator control is simplified with automated admix tanks to ensure the exact amount of admixture is used every time.

- **Heavy Duty Roller Chain**
  Engineering-class roller chain with 1¼ inch angle-iron cross members that supports a vanner edge aggregate conveyor belt and protects the chain from debris to ensure accurate aggregate delivery.

### OPTIONS

More options available, contact your Cemem Tech rep for details.

- **10 Yard Package**
  Increase your concrete production with the same unit when you have a 10 yard aggregate bin, 510 gallon water tank and a 115 cubic foot cement bin.

- **Latex Package**
  Volumetric mixers are a perfect match for producing high-quality concrete mix designs that are used to overlay bridge decks.

- **Trailer**
  Eliminate the need for another chassis by mounting a mobile mixer on a trailer with an external engine.

- **Power Chute Lift**
  Operators can more accurately deliver concrete to finishers with the ability to adjust the angle of the discharge chute independently of the mix auger angle with a dual hydraulic chute.

- **Wireless Remote**
  Operators can move about the job site while maintaining control of the mixer.

- **Color System**
  Need color? No problem, a hopper provides the ability to introduce color pigments into concrete for multiple applications.

- **Ticket Printer**
  All materials are metered and tracked throughout the pour to generate an accurate batch ticket.

- **Additional Admix Systems**
  Add another admix system for mix designs requiring more than two admixes per job.

- **Spray-In Bin Liner**
  Get extra protection and seal the inside of the aggregate bin with a heavy duty polyuria protective coating.

*Measurements provided are approximations
**Built with an extended aggregate bin
