

CONTROL YOUR CONCRETE™

WITH THE C SERIES MOBILE MIXER

AUTOMATION

Electronic control panel and digital display of yardage and materials make for a quick-start operation.

ONE-BUTTON OPERATION

Push and pour — easy for anyone to use.

ACCURATE

Electronic mix designs for exact mixtures every time.

CONTROL

Quality, quantity, and schedule.

2nd Generation C Series
With Enhanced Technology

TECHNOLOGY	Electronic control panel features Auto-Washout™, Auto-Stow™, digital displays for mix design, and yardage poured.
EASE OF USE	Driver can set gate controls, push one button and pour. Mixer has accountability to itself through advanced technology and engineering.
ELIMINATE RISK	Pre-programmed mix designs take the need out of having concrete experts on staff. Information is stored electronically for each job and mix, continually improving productivity, profits, and to lower costs.
SAFETY	A no-slip work platform, high illumination LED lights, and a wireless remote lets the operator work safely through their shift.

“ The concrete is good every day. We don't have any problems. The trucks are consistent. ”

– R.J. Daigle & Sons, Baton Rouge, LA

C SERIES

SPECS, FEATURES, AND OPTIONS

SPECIFICATIONS	Carrying Capacity	Water Tank	Cement Bin	Production Rate*
C60	8-10 cu yd (6.12-7.65 m ³)	510 gal (1930 L)	115-140 cu ft (3.26-3.96 m ³)	60 cu yd/hr (45.87 m ³ /hr)

STANDARD FEATURES

AP-Touch™	Cemen Tech's proprietary, advanced one-touch control system. Simply select the mix design you need and the system auto adjusts to the correct mix. Pre-load unlimited mix designs so you're always ready for any job.
Auto-Stow™	Easy to lower and raise chute. This additional safety measure means you're traveling with a safely secured chute.
Auto-Washout™	Quickly wash out on the job site to prevent material build up.
High & Low Flow Admix Tank with Digital Flow Meters	Operator control is simplified with automated admix tanks to ensure the exact amount of admixture is used every time.
Two-Speed Cement Bin	Adjustable cement discharge allows an operator to easily switch between concrete mixers and flowable fill applications.
Sand, Stone & Cement Bin Vibrators	Ensure materials are delivered at a consistent rate with pre-programmed, auto-adjustable vibrators.
Dual Auger Cement Metering	Take the guesswork out of pouring with consistent mix designs within +/- 1 percent every time.
Pump Master Auger with IBS Bearing	A homogeneous mixing auger in the industry for higher discharge height than standard dual mix section augers with an internal bearing system pre-loaded with oil for extended life.
Work Platform	Put safety first with a large work platform to ensure cement is properly and safely loaded.
360° Swivel	Swivel chute makes concrete finishing easier by changing the flow of concrete in any direction.

OPTIONS

More options available — contact your Cemen Tech sales representative for details.

Color System	Need color? No problem! A hopper provides the ability to introduce color pigments into concrete for multiple applications.
Wireless Remote	Operators can move about the job site while maintaining control of the mixer.
2-Yard Extension	Want to carry more yards per trip? Extend the aggregate bin by 2 cubic yards for maximum capacity.
Ticket Printer	Generate a custom batch ticket for your customer.
Additional Admix Systems	Add another admix system for mix designs requiring more than two admixes per job.
Electronic Tarp	Secure aggregates during transit with a high-quality, UV resistant black mesh tarp.
Strobe Lights	Brighten up your work sites and create awareness for traffic around you with bright amber strobe lights.
Spray-In Bin Liner	Get extra protection and seal the inside of the aggregate bin with a heavy duty polyurea protective coating.
Automated Gates	Reduce operator error — aggregate gates self adjust to the required height based on selected mix design.
