# PRESS RELEASE

## Cemen Tech to Announce New Utility Package at ICUEE 2019

**Indianola, Iowa. September 19, 2019:** [Cemen Tech](#) is slated to unveil an all-new Utility Package for its volumetric concrete mixers at [ICUEE 2019](#). Specially designed for utility contractors with a need for standard concrete, flowable fill or specialty mixes, the new Utility Package includes deluxe features and capabilities such as the ability to fill micro-trenches, pour multiple type of concrete or grout with the same unit, and record and store all production information from the field.

More than any other solution, volumetric mixers offer utility contractors the concrete they need, when and where they need it. Pouring a sewer intake base, a thrust block, or flowable fill without wasting time or money—a volumetric concrete mixer has nearly unlimited uses on a utility contractor's job site. Cemen Tech's VMMB-certified volumetric mixers are approved for city, municipal, and state projects to meet or exceed applicable DOT standards.

- Increase productivity and save up to 40% on existing concrete costs.
- Save time by filling open utility boxes or trenches when ready, rather than returning later.
- Stop waiting for trucks and paying excessive fees for concrete. .

Cemen Tech will be doing daily demonstrations in booth L281 backfilling over electrical conduit, capping a microtrench, pouring thrust blocks and building a complete storm sewer intake base, wall and top, and pouring flowable backfill.

### Reception

The [National Utility Contractors Association](#) (NUCA) and Cemen Tech will co-host a reception Wednesday, October 2 at 4:30 – 6:00 p.m. in booth L281. All ICUEE 2019 attendees are welcome to stop by for refreshments and to meet NASCAR driver [Joe "Front Row Joe" Nemechek](#), who is currently chasing the all-time NASCAR start record currently held by racing legend Richard Petty.

Joe Nemecheck will be in the Cemen Tech booth Wednesday, October 2, from 12:00 PM – 6:00 PM signing collectible Hero Cards and hats.

For more information on the entire line of Cemen Tech's volumetric concrete production solutions, visit [www.CemenTech.com](http://www.CemenTech.com).

###

**About Cemen Tech Inc.**

Cemen Tech, Inc. has 50 years manufacturing and engineering experience in the volumetric mixing industry. As the industry leader, the company provides the highest quality concrete mixers to its customers. Cemen Tech currently operates in over 60 countries, services mixers across the globe, and supplies equipment to the United States military.
