

CONTROL YOUR CONCRETE™

WITH THE G SERIES MOBILE MIXER

DUAL USE

Produce gunite or shotcrete from the same machine.

ACCURATE

Mix material with precise consistency and volume.

CONTROL

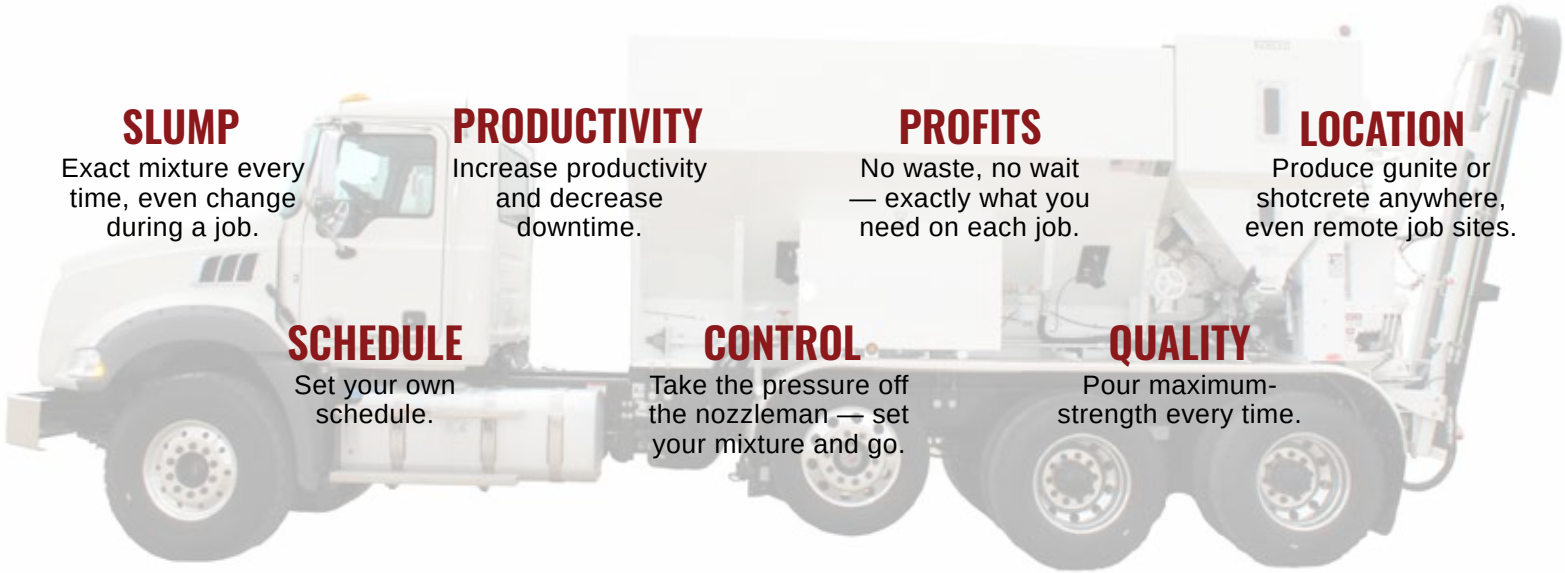

Quality, quantity, and schedule.

“ [The] average probably gets into the 50-75 yards per day range and we’ve gone up to 120 yards in one 8-hour shift. We just run all day long and don’t have to wait on ready mix trucks to show up. ”

– Mason Gaurino,
South Shore Gunite Pools & Spa, Inc.,
Massachusetts

PRECISE	Proven technology and robust designs allow for simple operation and minimum maintenance. VMMB approved.
PRODUCTION	Carrying capacity of 12 yards with a production rate of 30 yards per hour.
DESIGN	The 24” wide conveyor provides consistent and reliable flow of materials with no bridging — VMMB approved.
INNOVATIVE	Power gunite and shotcrete pump systems using the optional auxiliary hydraulic ports at the back of the unit.

SLUMP

Exact mixture every time, even change during a job.

PRODUCTIVITY

Increase productivity and decrease downtime.

PROFITS

No waste, no wait — exactly what you need on each job.

LOCATION

Produce gunite or shotcrete anywhere, even remote job sites.

SCHEDULE

Set your own schedule.

CONTROL

Take the pressure off the nozzleman — set your mixture and go.

QUALITY

Pour maximum-strength every time.

MODEL	CARRYING CAPACITY	CEMENT BIN CAPACITY	PRODUCTION RATE*
G30X	12 cu yd (9.17m ³)	115 cu ft (3.26m ³)	30 cu yd/hr (23 m ³ /hr)

Market demands of gunite and shotcrete producers are continually changing — that’s why we’re constantly challenging ourselves to better understand your needs to offer the best solution. Although demands change, our quality and performance has not. Gunite and shotcrete has been mixed and dispensed from our equipment everywhere you live, work, or play.

Cemen Tech is proud to be recognized as the largest manufacturer of high quality mixing solutions for gunite, shotcrete, and soil-cement applications.
