

CONTROL YOUR CONCRETE™

AUTOMATION

Electronic control panel and digital display of yardage and materials make for a quick-start operation.

ONE-BUTTON OPERATION

Push and pour — easy for anyone to use.

ACCURATE

Electronic mix designs for exact mixtures every time.

CONTROL

Quality, quantity, and schedule.

TECHNOLOGY

Every C60 has our proprietary ACCU-POUR technology installed which features digital displays for mix design, yardage poured, Auto-Washout™, and Auto-Stow™.

EASE OF USE

Push one button and pour, it's that easy to start and stop any job. The AP Touch Panel has a smart-user-interface design to make pouring simple yet ensuring the quality of the concrete.

ELIMINATE RISK

Pre-program your concrete mix designs to ensure the proper strength and durability for every pour. There is no need to input your mix of materials each time, ACCU-POUR remembers it for you.

SAFETY

A no-slip work platform, high illumination LED lights, and a wireless remote lets the operator work safely through their shift.

The SMART solution for the volumetric industry.

Drive decisions and business growth through accurate, timely data.

CONTROL YOUR CONCRETE™

SPECS, FEATURES, AND OPTIONS

SPECIFICATIONS	CARRYING CAPACITY	WATER TANK	CEMENT BIN	PRODUCTION RATE*
C60	8-10 cu yd (6.12-7.65 m ³)	510 gal (1930 L)	115-140 cu ft (3.26-3.96 m ³)	60 cu yd/hr (45.87 m ³ /hr)

STANDARD FEATURES

AP-Touch™	Cemen Tech's proprietary, advanced one-touch control system. Simply select the mix design you need and the system auto adjusts to the correct mix. Pre-load unlimited mix designs so you are always ready for any job.
Auto-Stow™	Ability to put auger at optimum mixing angle, it has a 170 degree swing and can be safely stowed in the upright position which is all controlled by the AP Touch panel.
Auto-Washout™	Quickly wash out on the job site to prevent material build up.
High & Low Flow Admix Tanks with Digital Flow Meters	Operator control is simplified with automated admix tanks to ensure the exact amount of admixture is used every time.
Two-Speed Cement Bin	Adjustable cement discharge allows an operator to easily switch between concrete mixers and flowable fill applications.
Sand, Stone & Cement Bin Vibrators	Ensure materials are delivered at a consistent rate with pre-programmed, auto-adjustable vibrators.
Dual Auger Cement Metering	Pour consistent mix designs within +/- 1 percent accuracy every time to reduce your material costs.
Pump Master Auger with IBS Bearing	Be assured of a consistent, high quality concrete mix with the pump master auger uniformly mixing cement powder with your aggregates and water.
Work Platform	Put safety first with a large work platform to ensure cement is loaded safely.
360° Swivel	Swivel chute makes concrete finishing easier by changing the flow of concrete in any direction.

OPTIONS

More options available — contact your Cemen Tech sales representative for details.

Color System	Need color? No problem! A hopper provides the ability to introduce color pigments into concrete for multiple applications.
Wireless Remote	Operators can move about the job site while maintaining control of the mixer.
2-Yard Extension	Want to carry more yards per trip? Extend the aggregate bin by 2 cubic yards for maximum capacity.
Ticket Printer	Generate a custom batch ticket for your customer.
Additional Admix Systems	Add another admix system for mix designs requiring more than two admixes per job.
Electronic Tarp	Secure aggregates during transit with a high-quality, UV resistant black mesh or solid tarp.
Strobe Lights	Brighten up your work sites and create awareness for traffic around you with bright amber strobe lights.
Spray-In Bin Liner	Get extra protection and seal the inside of the aggregate bin with a heavy duty polyurea protective coating.
Automated Gates	Reduce operator error — aggregate gates self adjust to the required height based on selected mix design.
Trailer	Eliminate the need for another chassis by mounting a mobile mixer on a trailer with an external engine.
