

Volumetric Accessories Guide

Aggregate Bin Accessories.....1

- Aggregate Bin Screen
- Auto Gates*
- 2-Yard Extension
- 4-Yard Extension

Cement Bin Accessories.....2

- Cement Flow Monitor*
- Hydraulic Cement Bin*
- Pneumatic Fill*

Color Additives.....3-4

- Dry Color
- Liquid Color
- Fiber Chopper

Chutes.....4

- 360° Lift Chute
- Aluminum Chute

Remote Monitoring.....5-6

- Camera System*
- Wireless Remote
- ACCU-POUR™

Water System Accessories.....7-8

- Hydraulic Pressure Washer
- Diesel Water Heater
- Hot Water Maintainer
- Water Fill Pipe

* Available option on C Series units

Aggregate Bin Screen

Featuring 2x2 inch holes, it effectively blocks large materials from entering the bin, preventing jams and damage to gates.

MSRP \$5,199

Auto Gates*

Self-adjust to proper height based upon selected mix design ensuring accuracy of materials.

MSRP \$7,999

2-Yard Extension

Expand your aggregate bin's capacity with our 2-Yard Extension.

MSRP \$1,899

4-Yard Extension

Expand your aggregate bin's capacity with our 4-Yard Extension.

MSRP \$2,699

Cement Flow Monitor*

Provides continuous monitoring of cement flow, ensuring adherence to mix design specifications, by automatically shutting down the mixer when a low flow condition exists, preventing deviations, and maintaining production efficiency.

MSRP \$3,899

Hydraulic Cement Bin*

A closed-loop hydraulic system adjusts for precise cement output accuracy and expands the range of available cement ratios and outputs. Its independent operation simplifies calibration without emptying aggregate bins, eliminating the need for manual clutch adjustments and chain maintenance.

MSRP \$15,499

Pneumatic Fill*

Enables continuous filling by a pneumatic tanker into the cement bin for seamless operations, offers versatile options for filling cement powder through tanker or silo.

MSRP \$3,499

** Available option on C Series units*

Dry Color

Enables you to add dry color powder to any mix design. Used in applications for utility work and decorative projects.

MSRP \$8,999

Liquid Color

Enables you to add liquid color to any mix design. Used in applications for utility and decorative projects.

MSRP \$15,499

Fiber Chopper

Enables you to add microfiber to any mix design to prevent small fractures in finished concrete and enhances stencil strength.

MSRP \$7,999

360° Lift Chute

Allows for faster removal of the first chute for pump pouring, eliminates the need for additional first chute storage, and is easy to maneuver and reposition quickly. It also features improved washout for efficient maintenance.

MSRP \$3,799

Aluminum Chute

Offers a lightweight alternative for concrete chutes making setup and clean up easier and more efficient.

MSRP \$499

Camera System*

Enhances visibility for safer maneuvering around jobsites and provides video recording of accidents and damage. Additionally, it may qualify you for insurance discounts—check with your provider for details.

MSRP \$6,399

Wireless Remote

Offers roll and pour capabilities, allowing you to control chutes without being tied to the control panel. Work with concrete efficiently while staying away from the unit for enhanced flexibility and convenience.

MSRP \$6,499

* Available option on C Series units

ACCU-POUR™

Track equipment, schedule jobs, collect production data, and run comprehensive reports.

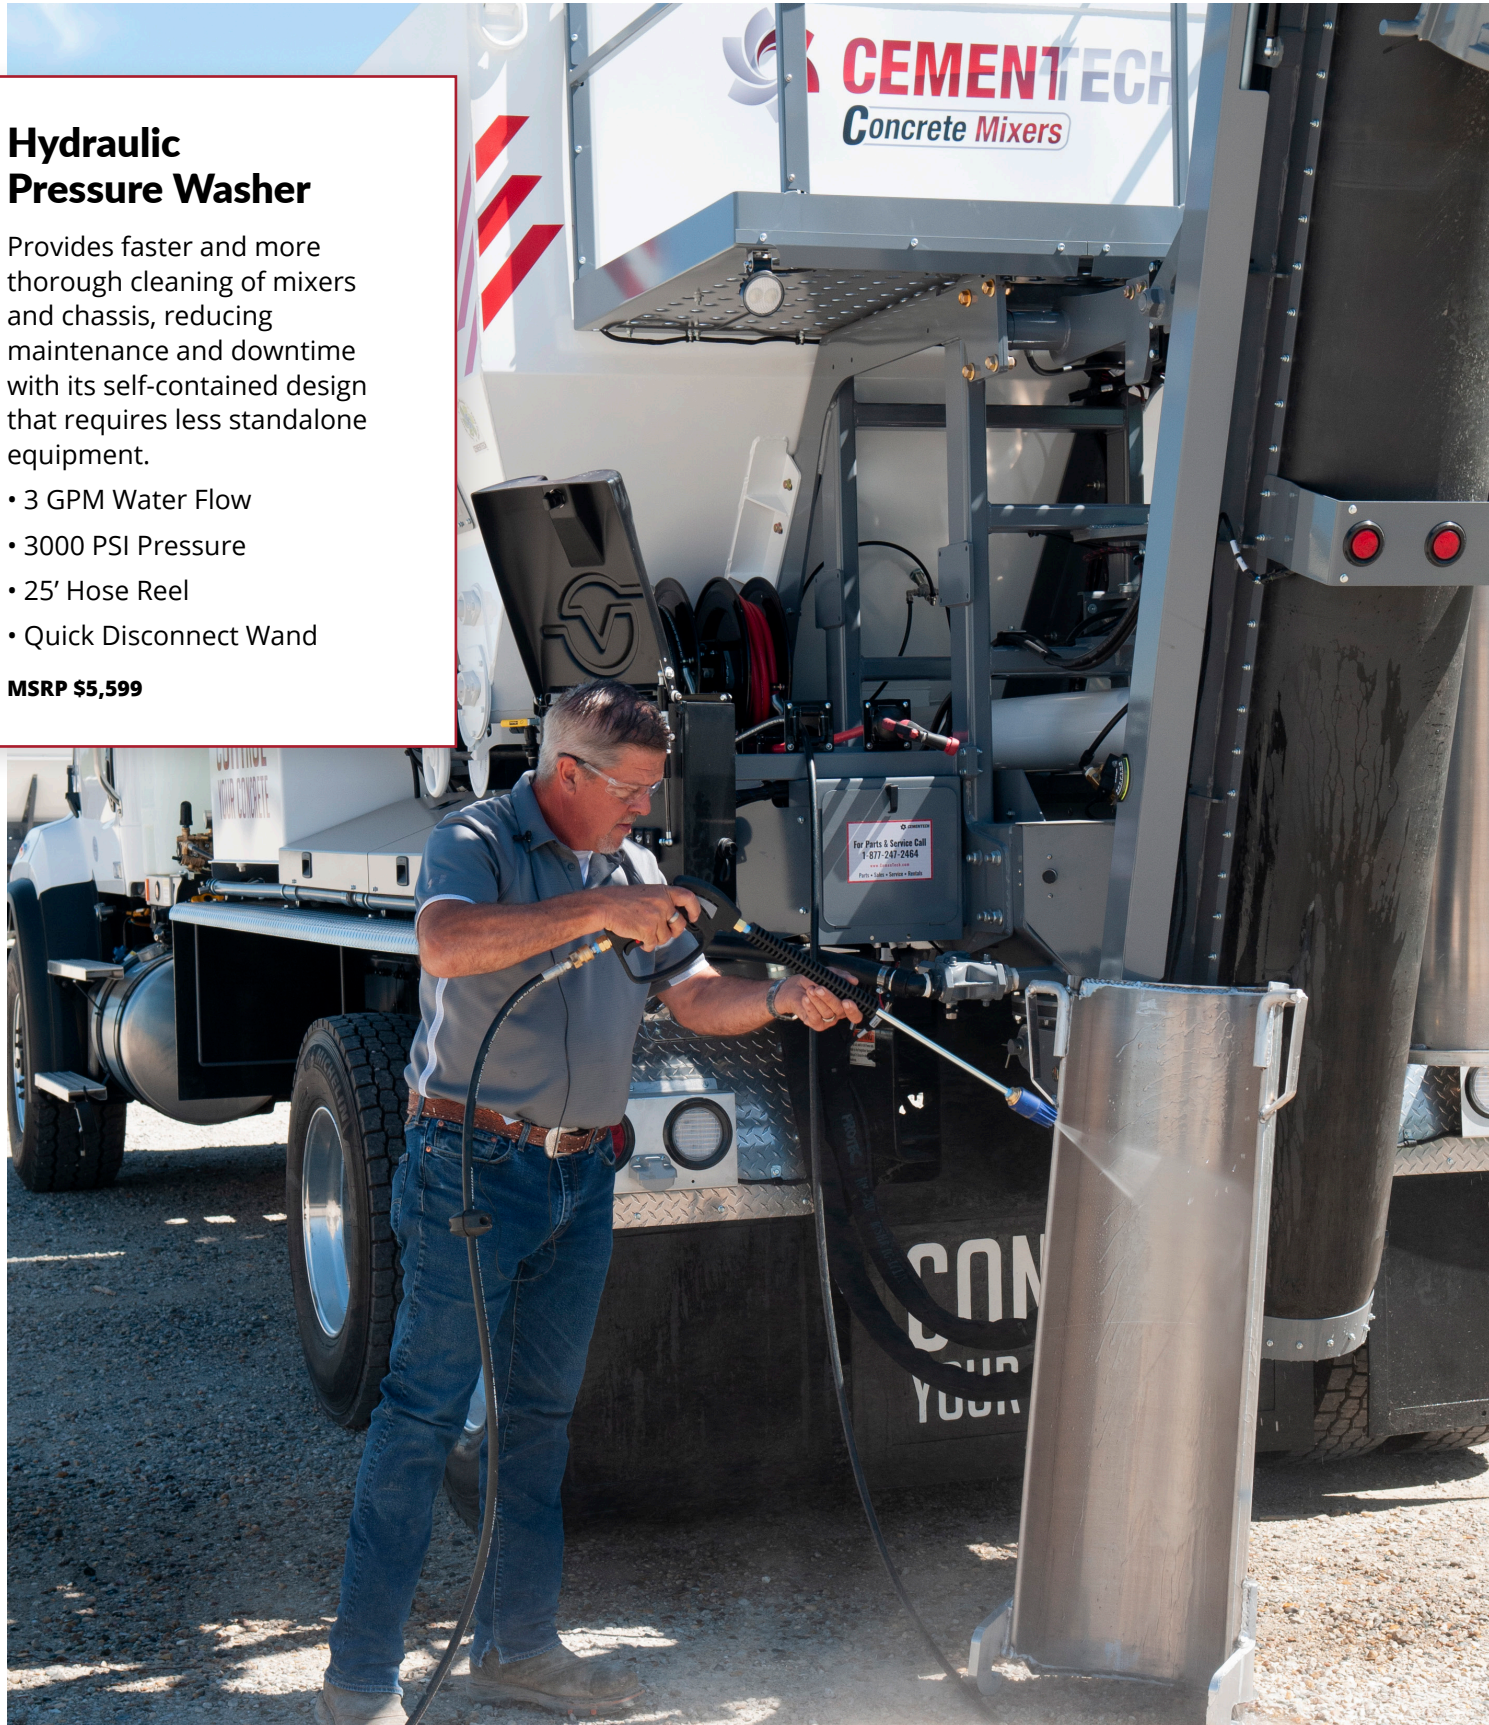

Hydraulic Pressure Washer

Provides faster and more thorough cleaning of mixers and chassis, reducing maintenance and downtime with its self-contained design that requires less standalone equipment.

- 3 GPM Water Flow
- 3000 PSI Pressure
- 25' Hose Reel
- Quick Disconnect Wand

MSRP \$5,599

Diesel Water Heater

Keeps water at an ideal temperature of up to 140°F (60° C), ensuring consistent hot water availability for optimal concrete pouring conditions.

MSRP \$28,999

Hot Water Maintainer

Self-contained system provides hot water to maintain concrete production within temperature specifications during winter months, ensuring optimal conditions for cold weather pours.

MSRP \$8,299

Water Fill Pipe

Enables continuous pour capabilities and is essential for hydrant water hook-ups, meeting regulatory requirements in some states.

MSRP \$1,099
