

SILO SERIES

CONTROL YOUR CONCRETE™

Adding a Cemen Tech upright or low-profile silo to your operation allows you to purchase and store cement in bulk, saving money and keeping crews working. Cemen Tech evaluates how you plan to store and transfer cement, and then recommends the best solution for your yard, remote job site, or application. ***Cemen Tech's line of silos offers stationary or portable solutions, power sources, discharge heights, and more in a variety of sizes.***

- Choose between mobile and stationary units
- Save money by buying cement in bulk
- Customize a unit to your specifications
